

EXPLORING THE TITANIC LAST YEAR AS AN ANALOG TO SUBORBITAL FLIGHT TRAINING

ALAN STERN

| *SOUTHWEST RESEARCH INSTITUTE*

In July of 2022, I participated in a 8-day long deep ocean submersible dive expedition to the RMS Titanic, over 12,000 feet below the North Atlantic. I will describe that exploration, its technologies, and its analogs to the training I am doing for an upcoming NASA suborbital spaceflight.
